

Hardware Catalogue

Our software provides easy to use software that people really want to use, for both partners and end users alike. All while helping improve how businesses deal with their customers. The phone system can be used on multiple devices, including Snom hardware.

Snom hardware sits in four product categories:

Telephones

Handsets

Conferencing

Headsets

Broadcasting

The D7xx Series – Quality, Advanced Features & Worldwide Recognition

The professional D7xx Series telephones are aesthetically appealing and offer a highly practical industrial design to meet mission critical business requirements where the telephone is a key tool in every day work.

These high performance devices provide the best in wideband HD audio, Bluetooth support, and high definition colour screens. The programmable keys ensure a perfect overview for monitoring extensions while the preinstalled

security certificates ensure automatic protected provisioning. The series meets all business budgetary requirements in seven different models.

D785 Desk Telephone

High-resolution colour display True paperless extension monitoring 24 self-labelling keys (6 physical) Gigabit switch | USB port 12 SIP identities | Sensor hook switch Bluetooth-compatible | Wideband audio

D717 Desk Telephone

High definition colour display Built-in light sensor Gigabit Switch | USB port 3 self-labelling keys 6 SIP identities

D765 Desk Telephone

High-resolution colour display 16 multicolour function keys Gigabit switch | USB port 12 SIP identities | Sensor hook switch Bluetooth-compatible Dual Stack IPv4/IPv6 | Wideband audio

D715 Desk Telephone

Graphical display with backlight Gigabit switch | USB port 4 SIP identities | Sensor hook switch Wideband audio Dual Stack IPv4/IPv6

D735 Desk Telephone

True paperless extension monitoring 32 self-labeling keys (8 physical) Built-in proximity sensor 12 SIP identities | Sensor hook switch Dual Stack IPv4/IPv6 | Wideband audio

D712 Desk Telephone

Graphical display with backlight Ethernet switch 4 SIP identities | Sensor hook switch Wideband audio Dual Stack IPv4/IPv6

D725 Desk Telephone

Graphical display with backlight 18 multicolour function keys Gigabit switch | USB port 12 SIP identities | Sensor hook switch Dual Stack IPv4/IPv6 | Wideband audio

D7 (Expansion Module)

High-resolution display with backlight 18 configurable, self-labeling LED keys Power supplied by phone via USB port Daisy-chain up to 3 expansion modules

The D3xx Series – with Quality, Functionality & Advanced Features

The Snom D3xx Series is perfectly designed with the European aesthetic and has been a telephone of choice for effective everyday work across millions of proven installations, providing quality and functionality that are indispensable for everyday working life.

This line of telephones is feature rich and powered by the proven and well-established Snom software that fulfills all of the requirements of advanced business telephony, including wideband HD audio for crystal clear conversations, robust CTI integration, compatibility with Bluetooth, high-definition displays and support for security standards such as TLS and SRTP.

The series meets all business budgetary requirements in six models from the entry level up to the executive office. D385

D385 Desk Telephone

D335 Desk Telephone

High-resolution colour display 32 self-labelling keys (8 physical) Built-in proximity sensor Gigabit Switch | USB port 12 SIP identities | Wideband audio

D375 Desk Telephone

Tiltable high-resolution colour display 12 multicolour function keys Gigabit switch | USB port 12 SIP identities | Sensor hook switch Bluetooth-compatible | Wideband audio Dual Stack IPv4/IPv6

D345 Desk Telephone

True paperless extension monitoring 48 self-labeling keys (12 physical) Gigabit switch | USB port 12 SIP identities | Sensor hook switch Dual Stack IPv4/IPv6 | Wideband audio

D315 Desk Telephone

High-resolution display with backlight Gigabit switch | USB port 4 SIP identities Sensor hook switch Wideband audio Dual Stack IPv4/IPv6

D305 Desk Telephone

High-resolution display with backlight Ethernet switch 4 SIP identities Sensor hook switch Wideband audio

D3 (Expansion Module)

High-resolution display with backlight 18 multicolour keys with LED Power supplied by phone via USB port Daisy-chain up to 3 expansion modules

Our DECT revolution

Snom's DECT solutions mean you're always contactable when moving around the workplace. The Snom family of IP-DECT systems and handsets ensure you never have to sacrifice functionality and quality for workplace mobility, while offering access to all the typical functions of your desk telephones.

The Snom IP-DECT systems can be installed quickly and scaled instantly while providing superb HD digital voice communication with call security and encryption. You always play it safe with Snom's multi and single cell solutions.

M90 Medical Handset

High resolution TFT colour display Wideband speakerphone | Antibacterial surface Configurable to M300, M700 and M900 | Headset jack Robust, shockproof design (MIL-STD-810g 516.6) DECT device according to protection class IP65 Bluetooth | Integrated alarm key | Belt clip

M85 Industrial Handset

Ruggedized IP65 DECT handset Alarm features to increase safety Shockproof, splash-proof, dust-proof Suitable for outdoor areas | Belt clip Programmable alarm key Configurable to M300, M700 and M900 Pull-cord, man-down alarm | Headset jack Vibration alert | Bluetooth-compatible

M80 Professional Handset

High resolution TFT colour display Wideband speakerphone | Headset jack Configurable to M300, M700 and M900 Robust, shockproof design (MIL-STD-810g 516.6) DECT device according to protection class IP65 Bluetooth | Integrated alarm key | Belt clip

M65 Professional Handset

High resolution TFT colour display Wideband speakerphone Configurable to M300, M700 and M900 Up to 250 h standby Local & shared address book Headset jack SW upgrade over-the-air Vibration alert, belt clip

M70 Office Handset

High resolution TFT colour display Wideband speakerphone Configurable to M300, M700 and M900 Robust, shockproof design (MIL-STD-810g 516.6) Bluetooth | Integrated alarm key Belt clip | Headset jack

M25 Office Handset

Speakerphone | DECT encryption Configurable to M300, M700 and M900 Up to 75 h standby Intuitive user interface | Headset jack SW upgrade over-the-air

M900 Base Station

Scalable on up to 4000 base stations Up to 16000 handsets per installation PoE compatible | Supports Bluetooth Beacons DECT and LAN synchonisation Integrated DECT manager No licensing costs | Supports TLS

M15 SC

1.7" graphical displayUp to 7 hours talk-timeUp to 7 days standbyIlluminated keypadIntegrated belt clipWorks with M200 SC and M400 SC

M325 DECT Single Cell Bundle

M300 base station & M25 handset bundle Up to 20 handsets Up to 5 parallel calls Repeater support | Snom provisioning Security (TLS and SRTP)

M200 SC

Single-cell base station for up to 6 handsets Up to 4 parallel calls Wideband audio codecs Snom redirection service PoE enabled GAP compatible

M700 Multicell Base Station

Scalable up to 254 base stations Up to 1000 handsets per installation Wideband audio | Over-the-air synchronization Repeater support | Snom provisioning No hidden costs for licenses No DECT manager required

M215 SC

Universal DECT-bundle Up to 6 handsets Integrated belt clip GAP compatible

Conferencing – Optimized for your business environment

In today's everyday working life, having simple and quickto-use conferencing solutions is absolutely essential. Snom's conference systems are easy to integrate into any work environment and able to meet any need.

With over 20 years of experience in VoIP technology, success is guaranteed.

C520-WiMi

Two wireless DECT microphones Automatic and adaptive echo cancelation technology Expandable by up to three C52-SP speakerphones for large conferences with up to 4 separate rooms

Supports two Bluetooth devices like mobile phones or headsets and one DECT headset

C52-SP

Wireless DECT connectivity to C520-WiMi and A230 for connection to desktop telephones Cable or battery power supply Up to 12 hours talk time and 70 hours stand-by

Headsets

A170 DECT Headset

First class HD audio quality Noise cancelling microphone Three wearing styles Long range DECT technology (up to 50m) Dual connection to external devices (Snom telephone and PC)

DECT A150 Micro Headset

Highest quality HD audio Long range DECT technology (up to 50m) Exceptional comfort thanks to an ultra-light design Built-in call notification and status lights Built-in battery for up to 6 hours of talk time and up to 35 hours stand-by

A100D

Binaural design with superior wideband sound 300° flexible boom with noise-cancelling microphone Single wire design for users' convenience

Quick Release (QR) connector system Ultra light-weight: 79g (without cord)

A210 Wlan dongle

To connect Snom telephones to WLAN WLan Dual-Band at 2.4GHz and 5GHz Status LED USB port connector

A100M

Monoraul design with superior wideband sound 300° flexible boom with noise-cancelling microphone Single wire design for users' convenience Quick Release (QR) connector system Ultra light-weight: 56g (without cord)

A230 DECT Stick

Connects up to two DECT devices to the Snom telephone Intuitive and easy-to-use LED pairing key Connection via USB port

QR Accessories

ACUSB adapter cable for USB devices ACPJ adapter cable for 3.5mm phone jack ACPJ25 adapter cable for 2.5mm phone jack

Public Address System

The PA1 allows you to create announcements by initiating a call from any Snom telephone. It has a built-in highly efficient amplifier and augments your existing SIP PBX and is the ideal solution for broadcasting announcements or to pipe background music in assigned rooms, hallways, and office floors.

D120

The Snom D120 represents the new standard of functionality and adaptability among entry-level IP telephones. With its backlit display it allows for an exceptional view of all call information and the integrated functions making it one of the best desk phones on the market. The D120 is the ideal telephone for hotels or hospitals or for any environment that requires high quality entry entry-level telephones. The Snom D120 is also well placed in terms of efficiency and cost.

Snom A210 Wlan Stick

No more tangled cables. Say 'goodbye' to annoying network cables and connectors with the Snom A210 USB stick. Simply connect your Snom phone to the internet via Wlan.

The stick is connected to the phone via Plug & Play. Simply select the corresponding wireless network and enter the password. Done!

It couldn't be more flexible.

The Snom A230 DECT USB Stick converts your Snom phone to a DECT base station. The stick is easily plugged into the USB port of the Snom phone. The rest configures itself via Plug & Play.

Snom A230 DECT

USB Stick

Any Snom phone can be equipped with the wireless Snom C52-SP external speaker unit and converted it into a cost-effective conferencing solution.

D717

The Snom D 717 desk telephone is the most cost effective way to enter the world of IP telephony. The modern telephone not only boasts a high resolution colour display, but also an integrated brightness sensor that ensures that the brightness of the telephone display is always adjusted to the current lighting conditions in the room.

This is not only practical but saves money with bigger installations. Since the display consumes the most power, the sensor switches it to standby mode during the night, thus saving electricity.

Of course, the Snom D717 is available in black or modern white finish. This means the phone is ideally suited to any work environment, whether it's an office or reception area. The Snom D717 combines cutting edge technology, superior call quality and distinctive design in one device. All of this at an unbeatable price.

This makes the Snom D717 the ideal entry-level device into the world of professional IP telephony.
